EFFORTS TO COMBINE FAIRS, SHOWS, RODEOS BRING COMPOSITE GROUP

The Glade effort to combine for the mutual good, all public and organizational shows, rodeos, and fairs of the area resulted in the second meeting of representatives of a dozen groups from Lake Harbor, around to and including Cape Point Wednesday afternoon.

It was decided by the dozen or so who were present to incorporate the effort under one organization composed of all Glades organizations now active, or who will become active in presenting such functions.

A tentative name for the organization, Southeast Florida Cattle Shows, Rodeo Shows and Fairs Committee, was adopted, and three men appointed to complete the representation and submit a slate of officers to be voted on at a meeting in mid-January.

The important question for this organization at present is to combine for the community use of the Mayo Building and grounds.

Communism Topic At PTA Meeting

"Americans are deceived by communist slogans," says Father Petrie. Misguided Christian idealism, an unrealistic Utopianism, and a faulty economic were blamed Thursday by Father John Clarence Petrie for the spread of Communism.

The speaker, who is vicar of the Episcopal Church of St. John the Apostle, Belle Glade, and of St. Martin's, Clewiston, was addressing the Parent Teachers Association at Belle Glade High School. Religious people are always in danger of letting their sympathy for the underdog override their thinking. They are distressed at unemployment, at too great a spread in income between the poor and the rich, at racial injustice. They feel such conditions conflict with the religion professed by Christians and Jews. Unless they are careful they will fall victim to any propagandist, who says he has the remedy for those social evils. Father Petrie (Continued on Page Two)

CONSERVATION REQUESTS MUST BE IN BY DEC. 10

Farmers interested in the Agricultural Conservation Program are asked to sign up by December 10, at the county Agents' office in the Sanders Bldg., as that is the deadline for filing requests under the program.

The basic purpose of the Agricultural Conservation Program is to aid in achieving necessary conservation of our soil and water resources. The future prosperity of this nation necessitates the protection and maintenance of our land and water resources. Conservation of these resources is urgent and it pays.

The Agricultural Conservation Program is entirely voluntary. Any farmer who believes he can do the needed conservation job on his farm without the aid of limited funds available under the program is urged to do so.

They will be given an opportunity to request the Federal Government to share the costs if needed to aid them in carrying out eligible practices on farms during the 1954 program year. The 1954 program year begins Jan. 1, 1954, and ends December 31, 1954.

The form on which the request for cost sharing must be made, may be obtained at the

the Glades at which Barnett spoke of the aims, purposes and success of this movement in Polk, Orange, Hillsborough and other counties in the state.

Hal Hunter acted as temporary chairman and J. L. Morrell as temporary clerk. Officers were elected.

John Cooper, Baptist, South Bay was elected president, J. L. Morrell, Baptist, Hialeah, was elected vice-president, Mrs. G. J. Barstow, Methodist, South Bay, was elected secretary, C. A. Bailey, Methodist, Belle Glade was elected treasurer.

George L. Royal, Methodist, Belle Glade was named chairman of finance to work with the treasurer on a plan of financing the movement to be presented at the next meeting.

Robert Ford, Presbyterian, Belle Glade, was named chairman of the constitution and by-laws committee, with Mrs. G. J. Barstow and J. L. Morrell as members.

Sunday afternoon at 3 o'clock on January 10 was set for the next meeting. The meeting will be in Belle Glade and unless otherwise announced will be at the Community Methodist Church.

The purpose of the organization is (1) To provide education for the attendant upon the use of alcoholic beverages. (2) To formulate, propose and work for the passage of municipal laws, county ordinances and state statutes, regulating the sale of alcoholic beverages. (3) To secure strict enforcement of the law, with particular reference to the sale of alcoholic beverages. (4) To crystallize sentiment and to secure action for the calling of a local option election, for the purpose of outlawing the sale of intoxicating liquors in the county.

Mr. Barnett spoke in his talk preceding the organization of the League of the evil of liquor, the deleterious effect on the human body and brain and the effect of liquor on juvenile delinquency and crime. He pointed out that last year one out of every 18 teenagers between the age of 10 and 17 had been in trouble with the police; that 53 percent of all autos stolen and 40 percent of all burglaries were by boys and girls under 18; that according to the Child Welfare League of Chicago 90 percent of all juvenile delinquency was due to liquor.

He also outlined some of the problems and ways and means of combating them which had been found successful in other counties in Florida. Particular emphasis was laid on control and curbing of liquor sales, gambling and other social evils as a means of reducing juvenile delinquency, crime, highway accidents and raising the standard of living and making the Glades a better place to live.

Those joining the League on Sunday were J. L. Morrell, Hal Hunter, Gene Butler, W. Tillis, all of Pahokee; J. S. Smith, Bean City; W. R. Hooker, Chosen; George L. Royal, C. A. Bailey, J. R. Roadman, all of South Bay.

FARMERS ARE RECEIVING ONLY 45 CENTS OF EACH DOLLAR SPENT FOR FOOD

United States farmers are now now receiving about 45 cents of each dollar the consumers spend for food, U. S. Department of Agriculture economists figure that producers will receive about the same proportion of retail prices next year. Although returns from individual foods will vary widely, the economists now think that retail prices, prices received by farmers for food products, and charges for marketing foods will average about the same in 1954 as in 1953.

Almost all costs of performing marketing services have increased during the past several years. At the same time local, state and federal taxes have risen. Both have served to widen the spread between what the farmer gets and what the consumer pays.

Marketing costs that make up most of the margin are rather rigid, or inflexible. As was well illustrated by the drop in beef cattle prices during 1953, an increase in the supply of a product that causes a decline in prices received by producers is not quickly or wholly reflected in lower prices to the consumer. Wage rates paid laborers who handle the product on its way to market do not go down along with the price of the product.

Agricultural research workers and others, have been endeavoring to bring about reduced costs in marketing services through increased efficiency and improved facilities in wholesaling, processing and retailing. They expect more ef-

iciency in the years ahead. However, cuts in costs that come from better handling seem likely to be more than offset by an expansion of marketing services. More and more processing, packaging and other marketing services are employed as time goes on and the economists say the trend will probably continue.

To spread even warmth throughout the home and prevent "packing" near the ceiling, place a small portable electric fan on the floor, tilted up toward the ceiling and facing away from the oil heater.

WASHINGTON NEWS LETTER

The U. S. Commissioner of Customs has agreed to go to Florida personally to investigate complaints that spot checking of incoming baggage is not sufficient to intercept insect pests and plant diseases being brought into the country. Many officials, including Agriculture Commissioner Nathan Mayo and State Plant Commissioner Ed Ayers have enlisted my aid toward restoring the 100 percent quarantine. I have lodged these numerous protests with the Customs Headquarters here. Commissioner Donald B. Strubinger now assures me he will look further into the matter. He is scheduling a conference at Miami on December 18 with custom and quarantine inspectors, and other state officials.

Seeking SBA Office — The newly created Small Business Administration, in setting up state offices in the Southeast, has announced no plans for a Florida headquarters to assist small businesses which are predominant in our state's industrial life. As a member of the Senate Small Business Committee, I have asked Regional Director Dwight Entwistle "how come?" As a longtime citizen of Daytona Beach, Mr. Entwistle must know of the importance of this agency. After conferences, I feel that steps will be taken to expedite establishment of the Florida office, which also will handle matters in Puerto Rico.

Stopped That Rumor: Charles Commander, several others from Jacksonville called me the other day to protest reported plans to move the VA Jacksonville office to Pass-A-Grille. After making my protests to VA HQ here, officials

said they now are trying to trace the rumor. It is completely unfounded, they said; no such move is being planned. Newsnotes Off the Coast: Spent delightful weekend at Miami Beach as guest of the Dade County "Goon Squad" my most ardent young campaign workers of 1950 who are so invited in their counterparts from over the state; most encouraging aspect of this rallying of friends was that every county in the state was represented. Independent scientific examination of the disputed battery additive has proved that Dr. Allen V. Astin, Director of the Bureau of Standards, was correct and confirmed the support I gave him in senate committee hearings. . . . have heard from many scientific groups and engineering schools after my Florida speech which included the information Russia is "out-educating" us in engineering field (Soviets expect to produce 50,000 engineers in 1953 compared to 17,000 U. S.). Something is going to be done about that over here! Have received encouraging mail from service men and families since I urged Defense Department appropriately to recognize the patriotism and courage of the POW's who withstood Red tortures. Some of these men are going to get recognition.

CHURCH DEVELOPMENT PROGRAM FOR 1953-54

A second annual Town and Country Church development program is being launched to find "The Rural Church of the South for 1953-54." Designed to stimulate more adequate church programs, to encourage participation in community improvement activities, and to provide the world mission of the church, the 1953-54 Town and Country Church Development Program will place major emphasis on the resources in the church and community.

Development is the key word of this program sponsored by Emory University and The Sears-Roebuck Foundation in thirteen southern states. It is aimed at churches in communities of 5,000 or less regardless of faith or race. Specific help for evaluation of their program, studying their resources and discovering their needs will be provided.

Certain stimulation will be provided by the 130 cash awards which are being offered for careful planning, keeping a record, and reporting progress. But the basic stimulation will come from the desire of each local congregation to make the work of the church more effective.

Any church in any community that is eligible can enroll by writing for blank to G. Ross Freeman, Director, P. O. Box 309 Emory University, Ga., or by filling the blank which is in the newsletter.

Blest Be The Tie That Binds

An Humble Clergyman is Richer Than His King

The dayman stopped his cart at the little Baptist parsonage at Waingate, England. Publius through a crowd he started, leading the few household goods of the Reverend John Fawcett, to the little parsonage.

Left an orphan at twelve, John Fawcett had had a fourteen-hour day in a printing shop. He had learned to read by candle light and had studied hard. Ordained at twenty-five he had taken the little church with his hundred simple members for a salary of a hundred dollars a year, partly in potatoes and wool. Now he had in his pocket a call to London's Great Court, Lane Theological Institute.

John Fawcett was to become one of the Empire's greatest scholars and preachers. He was to publish a volume of hymns; write books and

Blind be the tie that binds
Our hearts to Christian love;
The fellowship of kindred minds
Is like to that above.

Before our Father's throne,
We pour our ardent prayers;
Our fears, our hopes, our aims are one,
Our comforts and our cares.

At 232 S.W. Ave. B. Mrs. F. C. Schoenfeld was in charge of program and Mrs. Robert J. Baker, Jr., gave the devotion.

Others present were Mrs. Cullen Collins, Mrs. Fred White, and Mrs. E. D. Maxon.

CHURCHES OF CHRIST—SCIENTIST

That human progress rests upon mankind's understanding of the wholly spiritual origin of man and the universe was brought out in the Lesson-Sermon entitled, "God the Only Cause and Creator," which will be read at the Christian Science services Sunday.

Among the selections from the Bible, King James Version, the following will be read: "Hast thou not known? that the earth does not bear the weight of the ends of the earth, faintest not, neither is weary? there is no searching of his understanding" (Isaiah 40:28).

This passage from "Science and Health with Key to the Scriptures" by Mary Baker Eddy will also be among those read.

"Spiritual causation is the one question to be considered, for more than all other spiritual causation relates of human progress. The age seems ready to approach this subject, to ponder somewhat the supremacy of Spirit, and at length to let the Lord of Truth's garment (107:22).

60 SECOND SERMON

by Fred Dodge

TEXT: Some people grumble because roses have thorns. I am thankful that thorns have roses. —Alphonse Karr.

There was a day laborer who was a genuine optimist. One day he tramped three miles to his back-breaking work in a ditch. Then he discovered that he had been very careless. To fellow workmen he explained:

"Now I've gone and done it! I left my lunch at home." I added, "It's a good thing I did, for that matter, because I left my lunch at home, too!"

Listening to commentators, reading news and columnists, it is easy to be pessimistic that there are only thorns in this world. Many of us are too ready to accept the remarks of

found a school for young preachers. His "Essay on Anger" was so popular George III that the monarch was to allow him "any benefit a king could confer."

The last article was loaded on the cart. The minister started his trunk of goods. There were the usual hat married; the children he had had when he was the 14th whose names he had shared. Few of them could read or write, but their devotion was too much for him. He told the dayman to mind. He would stay a little longer. His stay ended 54 years later. He died there in 1837.

Declining the offer from the throne, Dr. Fawcett said he "needed nothing a king could supply" so long as he could live among the people he loved. . . . the simple people of Waingate whose devotion inspired him to write.

We share our mutual love,
Our burdens bear;
And often for each other,
The sympathetic tear.

When we sunder part,
It grieves us inward pain;
But we shall still be joined in heart,
And hope to meet again.

That which is given with pride and ostentation is rather an ambition than a bounty.

Presents which our love for the donor has rendered precious are ever the most acceptable.

—Ovid.

A little given seasonally excuses a great gift.

—George Herbert.

"Can You Afford to Criticize"

Outline for the INTERNATIONAL UNIFORM SUNDAY SCHOOL LESSON

LESSON TOPIC — "Government Under God"

SCRIPTURE LESSON—Romans 13:1-10; Acts 5:25-29

By Rev. Robert Ford

INTRODUCTION: Our lesson today points up the struggle in the world today between two opposite ideologies. Totalitarian nations make the state their God and demand complete allegiance therefore to the state. Democracy, on the other hand, recognize the supremacy of God and the worth of the individual (both of which face the danger of annihilation in our country today). Types of government change through the years, but the "unchangeable and unchangeable" that nation is blessed whose God is the Lord.

There are two realms of thought for Christians as we live today: using Christ's answers to the Herodians "to render unto Caesar the things that are Caesar's, and unto God the things that are God's."

I. WE ARE CITIZENS OF THIS WORLD—Romans 13:1-10.

A. The Attitude of the Christian toward Government vs. 1-4 — Obedience.

B. The Conduct of the Christian Toward His Government vs. 5-7—Honor.

C. The Character of the Christian in This World vs. 8-10—Love.

II. WE ARE CITIZENS OF HEAVEN—Acts 5:25-29.

We are to obey constituted authority, honor Government as of divine appointment. But always remembering that our citizenship is in heaven, and that human authority is to be obeyed until it comes into conflict with the authority of God; then the Christian is to render obedience to the Highest authority.

CONCLUSION:

On the seal of the United States, found on the dollar bill, there is an incomplete pyramid designed by Benjamin Franklin and intended to symbolize the constitutional government of the United States, above criticism in symmetry and structure, but requiring for its completion the "Eye of God, the divine guidance and the divine approval. Annuity, coexist in latin words meaning, "He has smiled upon our undertaking." Here is the real hope for our nation and for the world — "Government Under God."

Here's the stunning Ford Victoria, America's "Best Dressed" hardtop. Like other Fords, it's got a built-in Crestmark Body, Full-Circle Visibility, easier working suspension and Center-Fill fueling—all exclusive with Ford in its field.

Two fine cars for the price of one

America's "Worth More" car is also one of America's lowest priced...
two Fords cost you no more than one ordinary fine car.

You'd expect to pay costly-car prices for the many costly car advantages you get in this year's Ford. But Ford delivers these "Worth More" features for so little money, you can actually own two for the price you'd pay for one ordinary fine car.

Only Ford in the low-price field offers you a V-8. Or, choose Ford's Six, America's most modern economical six? Ford offers power steering, too. It makes all driving easier and safer. Check all of Ford's "Worth Features" and you'll see why Ford's worth more when you buy it, worth more when you sell it!

*A Ford Six, with Overdrive, won over all other cars in this year's Mobilgas Economy Run.

Fordomatic, Over Drive and Master-Guide power steering optional at extra cost.

The Fordor (above) like all this year's Fords, travels you "first class" over all kinds of roads. Front end road shock alone is reduced up to 85%.
